

Ku-ring-gai Community Workshop "The Shed"

Member Accreditation

Portable Electric Planers

Accreditation
Code

P5

Power planers do much the same work that the jack plane does but they do it more quickly, sometimes more efficiently and accurately, and always at a higher decibel level. The power planer is a hand-held tool, but it operates like an upside-down stationary jointer. It is a high safety risk tool.

This procedure must be read in conjunction with the Shed's Safety Induction Package.

Assessment Reference: P5 Portable Electric Planers V001

Assessment checklist

Item	Assessor Initial
Check the blades are secure and sharp	
Select the required depth of cut	
Secure the workpiece and guides	
Plane the workpiece
